Healthy CHOICES

Vending, LLC.

Introduction to Healthy Choices Vending, LLC

Healthy Choices Vending, LLC, referred to throughout this presentation as HCV, is owned and operated by Gabrielle Rem, a business owner, entrepreneur and investor whose base of operations are in New York, NY. After completing a considerable amount of due-diligence and research on both Healthy You Vending the manufacturer of the 3 in 1 vending units HCV now owns, and the vending industry as a whole Gabrielle has chosen to create her own business and to brand it nationally.

HCV is a turnkey vending company that installs, services and maintains the 3 in 1 vending units we own. We place our vending units into businesses and facilities that include however may not be limited to Schools, Colleges, Universities, Office Buildings, Manufacturing & Industrial Buildings, Hospitals and other locations in the public and private sectors.

The 3 in 1 vending units owned and operated by HCV sell a large variety of healthy and nutritional beverages, food entrees and snacks that promote good eating habits. Our vending units were designed to accept coins, paper money and credit/debit cards as payment and are durable and reliable. As a turnkey vending company HCV is the only point of contact for our customers and we take pride in delivering great customer service.

The purpose of this Company Profile is provide information to new Customers who are considering allowing HCV to place one or more of our 3 in 1 vending units into their facility. This information is generalized to remain flexible and will be followed by a formal proposal and contractual agreement when the Customer is ready to proceed. For additional information do not hesitate to contact Gabrielle Rem anytime.

Healthy CHOICES

Vending, LLC.

Products & Services

HCV offers a wide variety of healthy beverages, food entrees, sides and snacks that are rotated on a regular basis for maximum freshness.

Beverages

Food Entrees & Sides

Snacks

These products are healthy and nutritional to promote healthier eating habits outside of the home. American's and others are eating healthier at home and the demand to do so away from home is growing every year. By partnering with HCV you will be giving your Guests, Patrons, Personnel and/or Students access to healthy beverage, food and snack choices that have an immediate and long term positive impact. By providing access to the products sold by HCV you are giving others the ability to eat healthier away from home. In addition HCV provides organic and kosher products with a large selection to choose from.

Products & Services

As a “turnkey” vending company HCV installs, services and maintains the vending units we own and place in all locations. This means that you have a single point of contact that is backed by a national company. HCV is a reliable vending solution for any location and our Team strives to provide our Customers with the best;

- **Prompt & Reliable Services**
- **On-site Maintenance**
- **Helpful Phone Support**
- **Friendly Customer Service**
- **Fresh Rotation Schedules and...**
- **High Quality Healthy Beverages, Food Entrees, Sides & Snacks**

From maintaining the functionality and cleanliness of our vending units to stocking and rotating inventory on a schedule or as needed HCV is the right choice for providing healthy vending!

Incentive Programs

HCV will be happy to custom design special incentive programs for individuals, businesses, schools and groups who want us to place multiple vending units into one or more facilities.

In addition HCV is working in cooperation with the National Automatic Merchandising Association (NAMA) and their Fit Pick program that displays labels and stickers with nutritional information to help educate consumers on balancing their diet.

HCV believes that a primary key to our success is in the development and implementation of incentive programs that benefit our Customers. To accomplish this HCV will maintain an open mind to special requests and to working with local and national organizations. HCV is a member of the Alliance for a Healthier Generation and Vend.org.

Our Team

HCV has a small yet dedicated Team of professionals that are managed by the Owner/Operator Gabrielle Rem. This Team consists of;

Customer Service Professionals

Vending Specialists

Maintenance & Repair Specialists

HCV is growing and our Team will grow with us. It is important to note that our Team members are local to the vending unit locations. These jobs are important to the local communities we serve even on a small scale. Our Team members are knowledgeable and friendly with a positive Customer Service approach. Call or e-mail us today to learn more!

Resources & Support

As mentioned in the Introduction HCV buys the vending units we place from Healthy You Vending which is a division of 1.800.Vending and this company has a national footprint. Our Training and Technological knowledge originates from the manufacturer of our vending units and is ongoing.

HCV also has a national network of specialized “service technicians” who are on-call if there is an issue or problem that our Team cannot address. On rare occasion HCV will rotate out a vending unit if it becomes non-functional or problematic and replace it with another unit.

Vending, LLC.

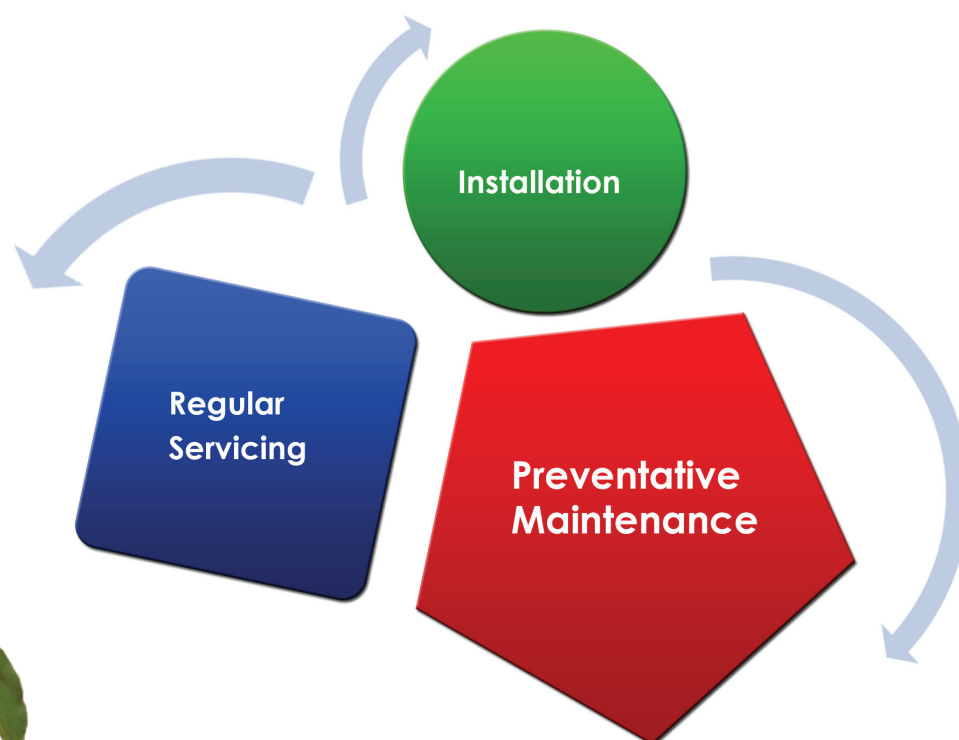

Logistics & Maintenance

HCV has simplified our Logistics and Maintenance into three categories of management;

- 1. Installation:** HCV installs our 3 in 1 vending units into the location chosen by the Customer, filling the unit with inventory and testing the unit for functionality prior to leaving.
- 2. Regular Servicing:** As with any mechanical equipment regular servicing reduces the potential for major malfunction and is completed by HCV on a predetermined schedule that is provided to the Customer. This is completed at every restocking service by our service technician.
- 3. Preventative Maintenance:** In addition to regular servicing HCV will facilitate scheduled preventative maintenance to ensure the functionality and the integrity of the system within each vending unit.

Relative to restocking inventory and rotation HCV has JIT (just-in-time) Inventory Control Systems that ensure fresh, never out dated, products are available in our vending units. Our goals are to make sure that our vending units work properly and have a good selection of healthy beverages, food entrees, sides and snacks to select from.

Our On-line Presence

In addition to www.Healthy-Choices.com HCV maintains an active social media presence that includes our utilization of various platforms to educate our Customers and the general public as well as to share information about the products and services we offer as a turnkey vending company. The efforts we put forth through social media platforms like Facebook, Twitter, LinkedIn and Merchant Circle allow us to create and maintain our brand on-line.

HCV will continue to spread the word about our products and services through our website and various social media platforms.
